Liquid metering valve
C236385

One-inch tube size, 150 to 200 vdc, electromechanically actuated (EMA)

Meggitt’s one-inch spool and sleeve style liquid fuel metering valve is in use on several aero-derivative gas turbines. With many years of successful field operation, this design demonstrates the precision of Meggitt EMA technology.

Specifications

Function: Precision liquid fuel metering for aero-derivative turbine engine control

Physical size: 12.1” x 6.00” x 19.33” high

Weight: 60 pounds

Fluid connection type: 1” pipe, code 61, SAE J518

Line pressure: 0 to 1440 psig

Fluid temperature: 32 to 176°F

Ambient temperature: –40 to 180°F

Flow: Linear trim, 0 to 57 gpm

Operating speed: Less than 200 msec full stroke response

Internal leakage: 0.75 gpm or less at 100 psid

Motor: Steady state, 150 to 200 VDC, 0.50 ampere; 10 amperes maximum transient for 100 msec

Resolver: 4 VAC, 25 to 60 ma maximum

Closed position indicating switch: 20 to 32 VDC, SPDT

Key features

- Accuracy, ±5% at 3.0 to 57 gpm
- High speed brushless DC servo motor performance, 20 Hz frequency response
- 200 msec full stroke response time
- Used on SAC turbine engines
- UL certified for NEC class 1, division 1, groups C and D, temp code T4, CE-PED certified
- All stainless steel valve and yoke materials for NACE compliance
- No maintenance required under normal conditions
